

Privacy Policy

cerbyl.com | Last updated 5 September 2026

This Policy explains what personal data Cerbyl processes, why we process it, how it is used and shared, and the choices available to you.

1. Data fiduciary and contact

CERBYL TECHNOLOGIES PRIVATE LIMITED determines how personal data is processed for the Services. Privacy questions and rights requests may be sent to privacy@cerbyl.com. Complaints may be sent to grievance@cerbyl.com.

2. Personal data we collect

Account data: name, email address, phone number, username, profile photo, login provider, age or age range, school or university and learning preferences you provide.

Learning and content data: prompts, chats, notes, files, recordings, flashcards, quizzes, answers, scores, study history, mastery signals, feedback and content you share.

Transaction data: plan, billing status, payment-provider references, transaction amount, currency, timestamps and limited payment-method details. We do not receive or store complete card numbers or security codes.

Device and usage data: IP address, device and browser type, identifiers, logs, feature interactions, crash and performance data, referral pages and approximate location derived from IP.

Communications and cookies: support messages and data needed for authentication, preferences, security, analytics and, only where enabled and permitted, marketing measurement.

3. Why we process personal data

We process data to create and secure accounts; provide and personalise learning; generate requested AI content; process purchases and subscriptions; operate sharing and classroom features; respond to support and rights requests; improve reliability, safety and user experience; enforce our Terms; prevent fraud; and comply with law.

Where consent is the applicable basis, you may withdraw it as easily as you gave it. Withdrawal does not affect earlier lawful processing and may make a requested feature unavailable.

4. AI processing

Content you submit to AI features is processed to produce the output you request and, where applicable, retrieve context from prior activity. Do not submit highly sensitive information that is unnecessary for learning. Vetted service providers may process prompts and outputs on our behalf under contractual restrictions.

5. How we share data

We share personal data only as reasonably necessary with hosting, database, communications, authentication, analytics, customer-support, AI and payment providers acting for us; an institution administrator when you join its workspace; other users when you choose to share; during a merger, financing or sale subject to appropriate protection; or where required to protect rights, safety and comply with law.

We do not sell personal data or permit payment providers to use transaction data for Cerbyl advertising.

6. International processing

Some providers or team members may process data outside India. We use contracts, access controls and other safeguards appropriate to the data and comply with restrictions notified under applicable Indian law.

7. Retention

We retain account and learning data while your account is active and for a reasonable period afterwards for restoration, security and disputes. Payment, tax, fraud-prevention and compliance records may be retained as required by law. We delete or anonymise data when no longer needed, subject to legal obligations, backups and disputes.

8. Security

We use reasonable technical and organisational safeguards including access restrictions, encrypted transport, authentication controls, logging and service-provider review. No system is completely secure. Report suspected risk promptly to support@cerbyl.com.

9. Your choices and rights

Subject to applicable law, you may request access, correction, erasure, withdrawal of consent, account closure, nomination and grievance redressal. Send requests from your registered email to privacy@cerbyl.com. We may verify your identity. Promotional email can be unsubscribed; essential account, security, billing and legal notices will still be sent.

10. Children

A user under 18 must use Cerbyl only with verifiable consent and involvement of a parent or lawful guardian. We do not knowingly target behavioural advertising to children. A parent or guardian may contact privacy@cerbyl.com to review or request deletion of a child's data.

11. Cookies

Strictly necessary cookies support login, security and core preferences. Analytics or marketing technologies, if used, will be described through the relevant notice or consent control. Blocking necessary cookies may prevent parts of Cerbyl from working.

12. Updates and complaints

We may update this Policy and will post the new date. Material changes will receive reasonable notice. Raise complaints first at grievance@cerbyl.com. This does not prevent you from approaching a competent regulator or authority when available under applicable law.
